DIRECTIONS TO CANDIDATES

1. Report to the Supervisor of the Examination Hall at least thirty minutes before the time shown for the paper. The timetable shows the time actual writing begins but you will be allowed five minutes at the beginning of each paper to complete your particulars on the front cover of the answer booklet. You are not to write anything in the answer booklet during this period. The time allocated for reading through question papers or studying maps, etc., is included in the total time allowed for the papers unless the rubric states otherwise.

2. Candidates who arrive late after the start of a paper will be required to give a satisfactory reason to the Supervisor otherwise they will not be allowed to take the examination. Candidates will not be allowed to leave the examination room until at least 30 minutes after the start of the examination.

3. Write your full index number, your name, title of the paper and the date of examination clearly on every answer booklet.

4. If an examination paper for which you have not entered is handed to you or if the question indicates that a map or other materials should also have been given out, but you have not received them, raise your hand immediately and inform the Supervisor or Invigilator.

5. Read the general directions that precede the questions very carefully. You will not gain extra marks if you answer more than the number of questions you are asked to answer. Much time may be wasted in writing down information not asked for.

6. Write on both sides of the paper unless the instructions on the question paper prohibit this and leave a margin at both right-hand and left-hand edges. Leave two lines between answers where these are sub-sections to the same question. Begin the answer to each full question on a fresh page. Do not leave blank pages between answers.

7. You must do all rough work in your answer booklet. (You will not be given any paper for that purpose and, of course, you should not bring any rough work paper with you into the examination room). Neatly cross out all rough work. You will not lose marks for doing rough work in your answer book.

8. Write the number of the question clearly at the beginning of each answer. If the question has sub-sections show these also clearly. Do not copy the question. Be careful to use the same system of numbering as that on the question paper.

9. Remember that grammar, punctuation and spelling will be taken into account. Write your answers in ink. You may use a fountain pen or a good ball-point pen, but pencils should be used for diagrams and multiple choice/objective tests.
10. Bring a set of mathematical and drawing instruments, mathematical and statistical tables for Mathematics, Science subjects and Technical Drawing. If you are offering Art or Technical Drawing or Typewriting, you must bring your own brushes and colours or drawing board, or typewriter for the examination.

11. Do not waste too much time on one or two questions that may leave you little time to answer others. No marks are given for irrelevant answers.

12. If you decide to leave the examination room before the end of the period allotted to the paper, you must not take any question paper away with you; you must return it with your script to the Supervisor. You may, however, go back at the end of the period to collect your question paper.

13. As soon as you are told that time is up, ensure that your answer booklet has your full index number and name written on it. Stay in your place until your script has been collected and you are told to leave.

CAUTION

14. Do not leave your answers in such a position that another candidate can read them.

15. No communication whatsoever will be allowed between candidates in the examination room.

16. Any candidate who is detected giving or attempting to obtain unfair assistance, or who is otherwise detected in any dishonesty whatsoever, will be reported to the Council for appropriate action.

17. If it is discovered that candidates have either copied from other candidates or given opportunity to other candidates to copy from them or communicated dishonestly with other candidates, their papers will be cancelled.

18. Candidates whose examination results have been cancelled for resorting to dishonest means may be refused re-entry to future examinations.

19. All candidates must submit themselves to biometric verification and bodily search by the Supervisor or the Council’s representative before entering the examination hall or in the course of the examination.

20. Candidates are not permitted to have in their desks or in their possession, while in the examination room, any book, memorandum, notes or papers whatsoever, except the correct question paper given out by the Supervisor/Invigilator in the examination room.

21. Candidates using mathematical instruments as permitted by the regulations must see to it that any information (formulae or other data) shown on them is securely covered up.
22. Candidates should **not** take any used or unused writing paper out of the Examination Room. Candidates who disregard this caution are liable to the same penalty as those who may be detected for dishonesty. Supervisors and Invigilators have been authorized to search candidates both before they enter and before they leave the examination room if they have reason to suspect that candidates are carrying prohibited materials.

23. Candidates guilty of disorderly conduct or causing disturbance in or near the examination room are liable to be expelled from the examination room.

24. The Council reserves the right to cancel the results of candidates if it believes that they have been involved in irregularities before, during or after the examination. *(See Appendix A)*

25. It is a criminal offence, punishable by law, to engage in any examination malpractice WAEC Act 719 (2006). You are hereby requested to comport yourself strictly in accordance with the regulations bearing in mind that in addition to having your examination results cancelled you may be prosecuted in a law court.

**SPECIAL INSTRUCTIONS REGARDING OBJECTIVE TEST PAPERS**

*These instructions should be carefully followed by candidates taking Objective Tests.*

26. You are required to bring into the examination room a pencil sharpener, an eraser and a ruler. 2B pencils will be supplied to candidates in the examination room.

27. You must write your full index number and name in ink on the question paper as required by the instructions on the question paper.

28. All index numbers, paper codes and answers must be shaded in pencil. Under no circumstance should pens of any type be used to shade index numbers and answers. The scoring machine can only read pencil marks; it is therefore necessary that you use only **2B pencil** in recording your index number and answers on the objective answer sheet.

29. To record your index number, you must re-shade carefully the machine shading of your index number on your objective answer sheet. An example has been given on the cover page of each question paper and this must be closely followed. The shading should cover the full width and length of the response position. The answer sheets are pre-printed with candidates’ names and index numbers, and you should **make sure that you have the correct answer sheet which bears your index number and name.**

30. Answer spaces must be shaded as shown below for C.

\[=A=\quad =B=\quad \phantom{-}C\phantom{-}\quad =D=\quad =E=\]
Ensure that the answer space has been shaded completely; note also that the shading does not continue beyond the two lines. Failure to shade the answer space as shown may result in loss of marks.

Note that the computer manufacturers state “No mark should extend more than one-sixteenth of an inch beyond the edges or ends of the mark positions”.

31. You must shade **one and only one** answer space for each question. Candidates should note that marking two responses to one question automatically gives them no score for the question. Therefore if you shade any answer space incorrectly, erase the wrong shading completely and shade the correct answer space. If a candidate makes a poor erasure, and substitutes a new answer, there is the danger that the computer will read the erasure as a mark and give no score.

32. Under **no** circumstance should the answer sheet be folded or crumpled or damaged. The computer will reject such answer sheets.

33. Candidates are further asked to note that since The West African Examinations Council processes over three million answer sheets per year, it is quite impossible for each one to be given individual human scrutiny. It is therefore the clear responsibility of the candidate to complete his/her Objective Answer Sheet exactly as described in these instructions.

**SPECIAL WARNING ON STARTING AND ENDING A PAPER**

34. When question papers are given out, no candidate should start work **before** the order to start is given. Furthermore, when the “stop work” order is given, candidates **should** immediately put down their pens or pencils.

Any candidate found working on a paper before the order to start work is given or found still writing when the order to stop work is given, commits an irregularity and will be penalized accordingly.

**SPECIAL WARNING ON CENTRE ARRANGEMENT**

35. Candidates **must** present their Admission Notices at the Centre assigned to them. Candidates who **do not** present their Admission Notices may **not** be allowed to write the examination.

36. Candidates **must write the examination at centres assigned to them by WAEC only**. Candidates who write the examination at centres not assigned them will not get result(s) in those papers.

**SPECIAL WARNING ON THE USE OF CALCULATORS**

37. Programmable calculators are **not** permitted for the examination.
SPECIAL WARNING ON MOBILE PHONES

38. **Under no circumstance should mobile phones be brought into the examination hall.**

Where a candidate is found with a mobile phone or any other electronic communication device in the examination hall, the entire results of the candidate shall be withheld pending the cancellation of his/her entire results by the appropriate Committee of Council.
